## Industrial UPS

### Product Snapshot

<b>Technology:</b>	Double conversion on-line
<b>Power Rating:</b>	5kVA to 100kVA
<b>Voltage:</b>	208-400-480V 3Ph Input 115-120-230V 1ph Output 110-125-220Vdc Battery Voltage
<b>Frequency:</b>	50/60 Hz

The E2001.e UPS series is designed to offer a cost effective product with the most advanced technology in industrial power supply applications.

The E2001.e system is an on-line double conversion UPS, designed to protect ac loads from any disturbances from the ac mains power supply.

The E2001.e UPS is fully compatible with all types of batteries (vented or sealed; lead-acid or Ni-Cd)

The power conversion to ac stabilized voltage is monitored by means of IGBT modules, assuring high performance in terms of efficiency, harmonic distortion and voltage stability.

The modular and flexible design allows easy configuration of

the system according to the customer technical requirements.

The system is provided with a digital mimic control panel, displaying the operational status of the equipment (signals, alarms, meters, history events). Serial interfaces are available for remote control of the UPS. Upon request supervision application software is available for monitoring via PC.

### Main Features

- ▶ Industrial layout
- ▶ Easy maintenance/front access
- ▶ LCD multifunctional mimic control panel
- ▶ IGBT Technology (PWM)
- ▶ Microprocessor control & supervision
- ▶ Large size (up to 100kVA) in reduced space
- ▶ Input galvanic isolation
- ▶ Reduced output THD with non linear load
- ▶ Remote monitoring via SPDT contacts
- ▶ EPO (Emergency Power Off)

### Main Options

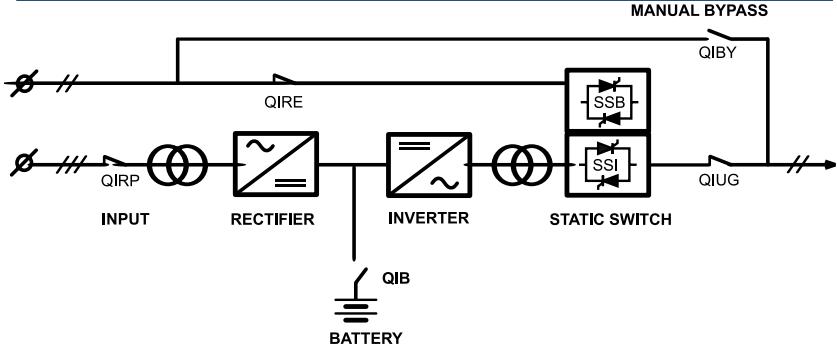

- ▶ Bypass line isolation transformer & AC/AC voltage regulator
- ▶ Additional input THD filters
- ▶ Redundant ventilation
- ▶ 12 pulse rectifier
- ▶ Active parallel redundant and parallel hot-standby configuration (n+1 units)
- ▶ AC & DC distribution panels
- ▶ External EEXD battery protection box
- ▶ AC & DC earth fault alarm
- ▶ Internal lighting
- ▶ Internal heater
- ▶ Temperature compensation of battery voltage
- ▶ Remote monitoring via PC/RS232/RS485
- ▶ MODBUS protocol
- ▶ SNMP protocol
- ▶ 3Ph Output (E3001.e model)

# E2001.e Industrial UPS

## E2001 Technical characteristics

Size (kVA) cosphi = 0.8	5	10	15	20	30	40	50	5	10	15	20	30	40	50	60	80	100
Input Voltage Vac					3Ph. 400 +/- 15 % (other as option)			50 - 60Hz +/- 5 %									
By pass Line Input Voltage						1Ph. 230Vac or 115Vac +/- 10 %											
						(according to inverter output voltage)											
Battery Voltage					110Vdc (Range 95-165 Vdc)							220Vdc (Range 176-325 Vdc)					
Output Voltage							1Ph. 230Vac or 115Vac (other as option)										
Harmonic Distortion							<1.5 % with linear load										
							<5% with non linear load as per standard										
Crest Factor							3:1 without derating										
Frequency							50-60Hz (selectable) with variation range +/-2Hz										
Overload							125 % for 10 min. - 150 % for 1min. Pn (load on inverter)										
							150 % Pn continuous (load on by pass line)										
Static Stability							+/-1 % (load on inverter)										
Dynamic Stability							+/-5 % with recovery to 2 % in 40ms
